TVRA Tech Talk

UT FORENSIC ANTHROPOLOGY PRESENTATION

THURSDAY, NOVEMBER 5th
Chota Rec Center - Room D
5 - 7 pm

FREE

MAX: 40

Join us for a presentation by the UT Forensic Center Staff to learn about their facility and outdoor laboratory for the study of human decomposition and crime-solving research.

- **The Anthropology Research Facility at UT sits on 2 acres of land using advanced technology to quantify how bodies interact with the environment.**
- **Their Skeletal Collection is the largest in the US and provides unique opportunities to study variation, pathology, and trauma.**
- **The Forensic Data Bank contains data on over 4080 cases in the US, Central & S. America, Europe and Asia.**
