Your Voice in the Village

HOA Wine Groups

Wine Groups are one of the most popular activities in Tellico Village! That's because they are a great way to meet your new neighbors, make new friends, and – most importantly – have fun! Wine Groups are very popular because of that casual and fun nature!

Here is how it works

- A wine group is created when 5 - 6 households sign up.
- An e-mail is sent to these households advising the members of their group and their contact information.
- One individual from the group takes responsibility for hosting the first event and contacts the others to determine best time.
- The wine group usually meets once each month, alternating hosts. The group decides the date and time. Each household is expected to host an event either at their home or at an agreed upon location.
- The host of the event determines the theme for the evening and provides glasses, plates, tableware, etc., as well as a bottle of wine and an appetizer.
- Each household brings a bottle of wine and an appetizer.

So, whether you are brand new to the HOA, never joined a wine group in New Villagers, or have just decided to add an additional event to your social calendar, sign up to be adventurous and have fun!
