

Aging with attitude Senior Planet, powered by OATS (Older Adults Technology Services), harnesses technology to change the way we age. Their courses, programs, and activities help seniors learn new skills, save money, get in shape, and other timely topics.

Senior Planet is about much more than just about the latest gadgets and apps and websites. Those gadgets and apps and websites are just means to an end: enabling older adults and people of all ages to come together and find ways to learn, work, create, and thrive in today's digital age.

Senior Planet is now regularly streaming online events that can be joined from anywhere in the world. When online events are scheduled, you'll see them on the webpage linked to below.

Click on this link to Senior Planet and their list of current on-line courses being offered free to anyone 60 years or older. [SENIOR PLANET](#)
