Let's go AXE Throwing

Axe hurling and alcohol, what could be more thrilling... Join your friends for a fun evening of flinging "Heavy Metal"

Although axes are one of the oldest tools used by mankind, legend has it that competitive axe throwing started in a backyard in Toronto, Canada in 2006. Canadians eh! At Craft Axe Throwing you'll use Axes, Ninja stars and other throwing items to take aim at the target and try for the bullseye. While you're at it why not start a little friendly competition with your friends. To make your time even more exciting indulge in a local craft beer or two from the in-house bar. Optional dinner at El Burro Flojo (8079 Kingston Pike) afterwards.
