

MUSEUM OF APPALACHIA

The Museum of Appalachia is a living history museum — a pioneer mountain farm-village that lends voice to the people of Southern Appalachia through the artifacts and stories they left behind.

65 picturesque acres include a recreated Appalachian community with: 35 log cabins, barns, farm animals, churches, schools, gardens, and beautiful peacocks!

Over 250,000 artifacts in 3 buildings; folk art, musical instruments, baskets, quilts, Native American artifacts, a section devoted to Sgt York, and more.

Plan to have lunch at the Museum restaurant specializing in Southern Appalachian country cooking. There is also a Gift Shop featuring locally made products!
