The breathtaking view of the lake and mountains will greet you as soon as you cross the threshold -- and that incredible view serves as the focal point for this exquisite home. Custom designed by the homeowners, you want to simply sit, relax, and take in all of the surrounding beauty. With soft fabrics and luxurious touches throughout, every element is directed at making guests welcome and comfortable for as long as they wish to stay. The kitchen is a cook's dream with unique cafe' appliances and beautiful touches of glamour and comfort. Be sure to notice how the colors, textures, and components of the overall kitchen design come together. The outdoor family fun and entertaining pool area is incredibly inviting, and the lower-level kitchen and pool access area is brilliantly designed for maximizing that feature and space. This home is a triumph in welcoming design and style that truly exemplifies the best of Southern comfort, hospitality, and luxury. You do not want to miss this experience!

HOUSE #3

Located in the Tanasi neighborhood of Tellico Village, the owners have thoughtfully and masterfully transformed the interior of this 1990's house into a bright and inviting home with an industrial, modern New York vibe. It is uniquely designed with amazing attention to detail and a magnificent melding of several styles using repeating design elements such as color, depth, texture, and imagery. Notice the light and how they have used mirrors, bright elements, versatile furniture, and accent pieces to highlight spaces for entertaining and relaxing with their music and treasures. Exemplified by the redesigned staircase, the glass study door and the lustrous piano work together to form a musical flow of light and air that creates an amazing sanctuary. The moving art sculpture above the fireplace and the elegant combination of natural elements infuse interesting textures and colors throughout the home. You will see functional elegance of design in areas such as the kitchen with touches of contemporary and a hint of European efficiency. Enjoy this uniquely designed home!

HOUSE #4  Tellico Village

This residence in the Tanasi neighborhood of Tellico Village welcomes you to a lovingly designed retirement home featuring one-floor living. Representing easy living at its best, the home has open spaces with function defined by clever furniture placement, colors, and architectural elements (like the coffered ceiling in the great room). The leathered quartz kitchen counters and wine bar are simply gorgeous and compliment the strategic placement of delicate and intricate works of art — glass, wood, oil, watercolor, iron, and textiles — all pieces that are simply enchanting. The soft color palette used throughout the home highlights the pops of color and touches of natural wood elements, reflecting the homeowner’s wonderful collection of art. The glass art will take your breath away! And you will enjoy several pieces attributed to the owners — like the mountain mural in the party garage! Thoughtfully planned details such as the custom cabinetry and solid surface shower in the master bath make the home wonderfully accommodating — no scrubbing grout! The oversized laundry provides great storage space and the children’s art wall is crafty and efficient. Adjacent to the master suite is a bright sunroom with views of the lake and mountains. Lots of ideas for making your home more “you” and more comfortable will be discovered here!
