

The **General Federation of Women's Club of Tellico Village** invite women in our community to help us with a service project!

**“By Women – For Women”
Breast Cancer Pillows**

We are making breast cancer pillows for several cancer centers in the area - Knoxville Comprehensive Breast Center, Tennessee Cancer Specialists and UT Hospital Cancer Center.

If you sew and would like to bring your machine, please do so, but sewing skills are not required. Volunteers are needed for non-sewing tasks including cutting fabric, stuffing the pillows, and whip stitching to close the pillow opening after the stuffing is put into it.

We will be at **Chota Recreation Center (Big Room) from 1:00 until 4:00 p.m. on August 31, 2023**. This project will require minimal work, but many hands will make the job pleasant and fun. Please come to see the work we do within our community, see if it is something you may have an interest in joining or just help for the day. **All are welcome!**
