Reaching Out for Your Help!

On August 18, 2018, six inches of rain caused our library to flood!

The damages were devastating. All of the carpet was lost and 18 inches of drywall and installation was destroyed. Virtually all the contents of the library were moved to the library annex until restoration is completed.

The restoration company knows our financial situation and with costs soaring to over \$60,000, they committed to complete the restoration for \$45,000. This does not include the repairs to our drainage system, which will also have to be done. We are in contact with our construction company and architect. The contractor will provide the labor free and we will pay for materials. Yes, we have insurance. However, it does not cover rain drain off.

Since we are privately funded, we are seeking your donations to help us restore our library. We hope your donation will give us the funds to pay this debt. We are asking for your assistance over and above your usual Friends Membership dues. Please help us restore this essential resource to our community!

Your entire donation is tax deductible.

Thanking you in advance!
